# NAVILAS®

The only  
navigated  
retina laser

#Navilas

„Follow our social media  
channels for news and user  
experiences.“

The Navilas® Laser System 577s by OD-OS is the next generation after pattern lasers due to the unique benefits of its proprietary navigation technology. Our yellow laser is proven in practices and clinics worldwide across major retina applications and more.

Do you have questions about navigated retinal  
laser therapy?
